

MODELS: DEC501W, DEC501WB, DEC501WG, DEC501, DEC502, DEC503, DEC504

- Contemporary Stamped Rim Vessel Sink
- High Fire Porcelain China
- Available in 7 glaze colors
- For use with vessel style drain only
- Hand Crafted in the USA

STANDARD DIMENSIONS

Please note that due to the hand crafted nature of our product sizes may vary up to 0.5" on either side of our standard dimensions. We always recommend having the sink on site for counter top templating.

[16.5" Exterior Diameter]

[15" Interior Diameter]

[5.5" Exterior Depth]

[5" Interior Depth]

[0.75" Rim width]

[1.75" Center Drain Hole]

*Recommendations

For most accurate templating have sink on site for cutting. Grid, Umbrella, or Pop Up vessel style drains are required for all Indikoi Sinks. No overflow system. Drain designed for an overflow system will not work in our sinks. Sink rests on countertop, silicone and hooking up plumbing will hold sink in place. Account for height of product when designing installation.

TIP: An Air Admittance Valve installed in the plumbing will allow air to enter pipes for faster water drainage.
